

Modern Duplex Webb Perfecting Press Just Installed in Big Sandy News Office

Plant Now Equipped for Greatest Growth

Without a word of warning to our readers the Big Sandy News goes to them this week enlarged and printed on a fine perfecting press just installed. It prints the entire paper complete, both sides of the sheets, and cuts and folds them.

Again the NEWS takes a long step ahead in weekly newspaper circles in Kentucky. This equipment will enable us to go forward again to a point we have set far ahead. We believe the people of Louisa, Lawrence county and the Big Sandy valley have a pride in leadership for their section of the state, and therefore will appreciate the efforts of the Big Sandy News to represent the interests of these mountain people in newspaper circles.

The NEWS now has seven columns to the page instead of six as heretofore, and the columns are one inch longer, thus increasing the matter to the extent of about one page and a half over former capacity.

to establish a sales and service agency in this community

NO industry in America offers a more attractive opportunity to quickly establish a permanent and profitable retail business than the automobile industry.

FEW, if any, automobile franchises offer a more splendid future to an aggressive business man than the liberal franchise of Willys-Overland, Inc.

75% of all automobiles sold today are of but three different makes! Overland is one of them. 90% of all automobiles sold today are of eight different makes! The Willys-Knight is another of them.

WILLYS-OVERLAND, Inc., is the only manufacturer which, in the Overland and Willys-Knight, produces two out of the eight most popular cars in the world.

WE invite comparison with other cars in the same price classes as to materials, construction, riding qualities and economy of operation.

INVESTIGATE the used car market and you will discover that used Overlands of present design move at good prices and Willys-Knight cars are rare among used car stocks.

UNLESS you are familiar with the splendid performance records of the present-day Overland and Willys-Knight, you cannot fully appreciate the reason for the public preference for these two cars.

AND at their new prices, they offer sales possibilities greater than ever before in their history.

IF you have or can command the facilities to establish a high-grade repair shop and local Sales organization write

The Big Sandy valley is entitled to better passenger service than it is getting from the C. & O. railroad. We are paying the same high rate for riding in dilapidated and antiquated coaches as people pay on the main lines for comfortable and sanitary accommodations. One chair car is attached to each train, with a minimum extra charge of 75 cents. The passenger traffic is so heavy on the Big Sandy division that often many passengers are compelled to stand in the aisles. The same fare is collected from them. As before stated in these columns the Big Sandy division is one of the most profitable sections of the C. & O. system, yet we never have had equipment in keeping with this condition. No longer can the excuse be made by the railroad company that revenues are not sufficient to justify better service. Both passenger and freight rates are too high and there is more coal business in the Big Sandy valley than the C. & O. can handle. Mines are able to run only part time because the railroad can not furnish the transportation.

It begins to look like the Big Sandy people will be forced to apply to the Railroad Commission and the Interstate Commerce Commission for relief.

The NEWS believes its duty is first to the public and therefore in these matters it proposes to act in the interest of the public.

There is another phase of the railroad situation about which we are beginning to hear a considerable amount of talk and criticism. It is said that some of the train crews handle their work in such a way as to insure them all the overtime possible, because they receive time-and-a-half for overtime. We have inquired into the details of this practice and have acquired information as to some of the methods used. The public suffers because other trains that should directly permit a competent and unfettered business man to be nominated and elected. Already has resentment been shown by certain ambitious politicians. The next move in order is for the people to show their approval of the business man movement and their resentment of all efforts on the part of professional politicians to force their way to the chief executive office and through that to the United States Senate.

The Governorship of Kentucky has too long been used merely as a stepping stone to the office of Senator. Both parties are equally guilty. It is impossible to play politics in this matter without sacrificing the interests of the public. There is a great opportunity for a real Governor in Kentucky. A general reformation is needed, especially looking to abolishing useless offices, reducing expenses of administration, and building roads.

There are 25 to 35 per cent more Circuit Judges than are needed, and the burden from this source is enormous. We have antiquated methods in many departments, adding heavy burdens to taxpayers.

Only a courageous, competent business man is going to revolutionize the order of things. Politicians are hedged about and bound down by politicians who are not willing to except reform in office—and many of them have in view some form of graft. They are not statesmen. They can not be. High ideals are necessary to genuine public service.

This is a time when people are voting as they please. They can have a business man if they will call one into service. The men most needed are not willing to enter into a scramble for nomination and election. They do not need an office and rarely want one. They must be called to it as a duty. That's what Kentucky needs to do at this time.

Last Saturday was an anniversary of the Armistice day of the World war. It was celebrated pretty generally throughout the United States and in other countries as well. Thousands of persons gathered in front of President Wilson's home in Washington city and paid him another great tribute. He spoke to the crowd, expressing his convictions in the vigorous language that always has been able to command. He is broken in health but his great mind continues clear and alert.

At last, a woman has been convicted of manslaughter. It happened in California. She was an actress, Clara Phillips, and she gets a sentence of ten years minimum to life maximum for killing another woman. There were three women on the jury and they stood out at first for the death penalty. If Clara had killed a mere man and there had been no women on the jury the verdict might have been acquittal.

JAPANESE DENIED CITIZENSHIP

United States Supreme Court Decides They Are Not White.

Washington, Nov. 13.—Japanese are not of the "white" race and under federal laws are not entitled to citizenship by naturalization, the United States Supreme Court today decided. The opinion of the court sets at rest a vigorously contested dispute which arose on the Pacific coast and has waged there for years.

Associate Justice Sutherland delivered the decision of the court, it being his first opinion since becoming a member of the court.

The Supreme Court held that the federal statute limiting citizenship to free white persons and Africans, or those of African descent, had not been repealed or modified by any subsequent legislation and that Japanese are not of the Caucasian race. The court affirmed a decision by Washington State courts holding this opinion.

Decision as to the "color" of a Japanese and eligibility to naturalization as a citizen of the United States under a federal statute limiting naturalization to white persons and Africans or those of African descent was asked of the United States Supreme Court in the appealed cases of Takao Ozawa of Honolulu and Yamashita, of Washington State. These cases have attracted much attention, especially on the Pacific coast where the Japanese question is acute.

Ozawa contended he was entitled to citizenship because he is white and had molded his life according to American ideas and customs. He began his fight for citizenship before the United States court in Hawaii several years ago, but his contention was denied by that court and by the federal circuit court of appeals in California. Ozawa went to Hawaii when a young man and was educated at American public schools. He married and his children are being educated as Americans, and are American citizens.

WAYNE COUNTY VOTE WAS MIXED AFFAIR ON NOVEMBER 7TH

Republicans Elect County Ticket, But Lose Heavily for Congress and Senator.

For the first time in history the entire county Republican ticket was elected in Wayne county on Tuesday. All of the precincts have been heard from on the county ticket vote with the single exception of Dragg, in Lincoln district. Dragg is Republican by a good majority (majority estimated at 150) and the returns from that precinct would only tend to increase the Republican majority given by the other thirty-five precincts in the county.

The fight on the county tickets of the two opposing parties was without doubt the most unique in the annals of West Virginia political history. The success of the Republican ticket over the Democratic slate was solely due to the fact that all of the Republican candidates were in favor of removing the county seat, while the entire list of Democratic nominees were anti-removalists. Removalist Democrats scratched their ticket in favor of Removalist Republicans. The candidates of course, were elected on a 50-50 vote basis, while the county seat question was determined by the three-fifths necessary for a county seat removal.

A singular feature of the vote cast was the fact that although Wayne county Republican on the county ticket, Neely (D) carried the county over Sutherland (R) for U. S. Senator by a majority of 1158 with Dragg out. Lilly, for Congress, won over Goodykowitz, his Republican opponent by 557 with Dragg still out. The returns from Dragg cannot decrease these margins more than 150.

The proposal to remove the county seat of Wayne county from Wayne to Kenova was defeated in Tuesday's election by a majority of 636 votes. Kenova's defeat was 166 votes larger this time than in the last election, held April 25, 1922, at which time the majority against removal was 470. The complete vote on the county house issue has been received from all of the 36 precincts.

Notwithstanding the heated feeling which attended the late campaign on the removal issue, there was a considerably lighter vote turned out Tuesday than in the former election. Of the 13,940 persons registered for this election only 9,488 voted. In the special election last April the total vote cast was 10,800.

Sunday night an injunction was served to prevent challengers from serving in Wayne county. This was a move of the leaders favoring removal of the court house.—Wayne News.

JOHN N. FRENCH DEAD AT 97 YEARS

John N. French, one of the best old citizens of this county, died Thursday night of this week at the home of his son, Tobe French, at Vessie, where he had made his home for 11 years. He had lived until Christmas day he would have been 97 years old.

He was born in Mercer county, Va., and came here just after the Civil war. He was twice married and there were three children by the first union and nine by the second. All are living except one son, Curt. The last wife died about four years ago.

The surviving sons and daughters are Mrs. Hiram Howell of Denton, Mrs. Bud Davis of Mavity, James French of South Portsmouth, Mrs. Stephen Currutte of Catlettsburg, Mrs. Wm. Taylor and Mrs. Joe Stewart of Ashland, Mrs. Julia Lambert of Zella, Tobe French of Vessie, Mrs. Elliott Billups of South Point, Ohio, Mrs. Cora Compton of Rullette, Robt. French of Charleston, W. Va.

The funeral will take place Saturday and the burial will be in Buchanan chapel near Zella. Revs. Hewett and Campbell will conduct the services.

Mr. French was a fine type of citizen. He was a man of the strictest integrity, industrious and always stood for the right. He had been a member of the M. E. Church South for a great many years. He had been able to get around quite well until about a month ago, when he became sick and was confined to his room.

ELLIS AND JACK

Ellis Motook and Jack Tahnoose will close out their merchandising business here and go to Detroit, where 12,000 Syrians live. They are doing this because their wives want to get amongst natives of their home country. They do not speak English and have been in America only a few months and are therefore quite lonely here. Ellis and Jack have spent several years in America and have learned English very well. They think America is the greatest of all countries. More than a year ago they returned to their old home in Syria, where there was and is much distress. They remained there a few months, helping relatives to get in position to live. Some of them had died of starvation along with the thousands whose lives ended that way. Before returning to America Jack married Ellis' daughter and the two couples came over together.

Jack lived in Louisa for quite a while previous to the World war, going from here as a soldier, and serving in France through some of the hard fought battles.

C. D. Silvers Marries in Middlesboro, Ky.

Louisa friends of Mr. Claude D. Silvers will be interested in the following account of his wedding which took place in Middlesboro, Ky., October 25. Mr. Silvers was Louisa boy, having been reared in the home of his relatives, Mr. and Mrs. G. W. Atkinson. He left here a few years ago for Middlesboro and has been at Kitts, Ky., since returning from army service.

He is a young man of sterling qualities and has many friends here all of whom wish him and his bride a long life of happiness.

Middlesboro News:—The marriage of Miss Henry Etta Rash to Mr. Claude D. Silvers was solemnized at high noon today in the First Presbyterian church. The Rev. J. V. Logan of Louisville performed the ceremony, assisted by Dr. J. A. Gray. The church was decorated in ferns and potted plants and the choir loft was basked in green foliage. Mr. Richard M. Barry presided at the organ, playing "Believe Me If All Those Endearing Young Charms" as a prelude, Lohengrin's Wedding March as the processional, "Call Me Thine Own," during the ceremony and Mendelssohn's wedding march as the recessional.

Eight girls, close friends of the bride, were their bridesmaids, entering the church just before the ceremony to take their place in the choir, and rising when the strains of the wedding march began. These were Miss Carrie Lee Tompkins, Miss Mary Elizabeth Buchanan, Miss Henrietta Gordon, Miss Mary Frances Davidson and Miss Kathryn Burch. The bride entered the church on the arm of her brother, Warren P. Rash and was given away by him.

She was attended by her sister, Mrs. Ellen Rash, dressed as matron of honor. The bridegroom's best man was his brother, Everett Silvers of Fork Ridge. The bride was dressed in a suit of dark blue velveteen with a squirrel collar, a blue hat faced in silver, and gray gloves and shoes and she carried a bouquet of Columbia roses.

The bride, one of Middlesboro's prettiest and most popular girls, is the daughter of Mrs. Alice Rash.

Mr. and Mrs. Silvers left on the noon train for Louisville and from there they will go for a honeymoon trip in the south. They will be at home at Kitts, Ky.

Miss Rash was the guest of honor at a miscellaneous shower and also at a shower and luncheon given by friends.

The Knoxville Journal and Tribune of Sunday published a picture of Mrs. Silvers with the following comment: "The prettiest girl in town" was the description used by Middlesboro admirers of Miss Henry Etta Rash, who Friday became the bride of Mr. Claude D. Silvers of Harlan, Ky. The many friends of the bride in her home city where she had lived the most of her life, regret that her marriage takes her to another place of residence.

Mr. and Mrs. W. F. Hatten and daughter, Constance, and Mr. Oliver Wheeler motored over from Huntington Sunday and spent the day with Mr. and Mrs. Ezra Hatten.

Money Raised by Churches

The Literary Digest says:—"Despite the fact that the aggregate wealth of the United States is said to have increased ten times per capita during the same time, the steward of a large denomination said that the average member of his denomination 'is contributing only one cent more a week compared to forty years ago.' Yet the half billion dollars contributed during their last fiscal years by the various church bodies is generally regarded as cause for congratulation, and the Albany Journal remarks that 'notwithstanding many evidences of frivolity and worse that have been conspicuous in this country of late, this figure proves that religion maintains a strong hold on the people.' The reports gathered by the Federal Council of Churches of Christ in America show that the combined Methodist bodies lead with contributions of \$139,739,479; the Catholic Church is second with \$75,368,224; and the combined Baptists are third with \$60,798,534. The Methodists combine the Methodist Episcopal Church (North) and the Methodist Episcopal Church (South) while the Baptists have the Southern Convention and the Southern Baptist Convention. The standing of the combined Presbyterians is \$46,381,170; of the Protestant Episcopal Church, \$34,873,221; of the Lutherans, \$32,770,710; of the Congregationalists, \$23,233,412. The number of church members in the United States, it is estimated, is 46,243,130, and by the average, computes the Journal, each one gives at least \$10 a year to the support of his church and its work. Episcopalians, it notes, are the most generous of the larger communions, their average being \$31.59 a year, while members of the Presbyterian Church (South) are second, with a per capita gift of \$30.54. An important point, remarks the Kansas City Star, is that the contributions are not spread out evenly among the church members.

"It has been shown many times that the raising of money in a church, as well as the main work of the organization, must be done by a comparatively small number of the members. Where large numbers of children are included in the membership this condition especially prevails in the matter of giving. It is reasonable to suppose, therefore, that in numerous instances the support of religious work of various kinds may entail a real sacrifice, if not a burden, on the part of certain church members.

"The condition might reasonably be changed, both with respect to the few contributors and the combined total, by more general giving. A survey of a number of churches in Middle West-

Gen. John J. Pershing would have been quite a boy in the front line trenches with a rifle—had he not been busy bossing our A. E. F. in France. Last week on the lower Mississippi he went duck hunting with Gov. Parker and Bernard Baruch, using a 10-gauge gun, dropping his first eight birds without a miss. Then he posed for this exclusive photo.

IN MEMORIAM

MRS. R. M. CURNUTTE.

On November 5, 1922, the death angel visited the home of brother R. M. Curnutte and took from his embrace his loving wife. She was born October 6, 1852. She was 70 years and 10 months old. She leaves a companion and two daughters to mourn her loss.

The funeral services were held at the home by J. H. Holbrook, assisted by Bro. Ellis.

Sorrowing friends do not think of her as dead, but think of her as waiting for you at the pearly gates to meet and never say goodbye.

It is said that one we cherished. Should be taken from our home. But the joys that do not perish. Live in memory alone.

Earth has lost its flock of gladness. Heaven seems to us more bright. Since the spirit of our dear one. Took its happy homeward flight.

NATURE TELLS YOU

AS MANY A LOUISA READER KNOWS TOO WELL.

When the kidneys are weak, Nature tells you about it.

The urine is nature's index.

Frequent or too frequent passage.

Other disorders suggest kidney pills.

Don't's Kidney Pills are for disorders of kidneys.

Ask your neighbor.

M. Ferguson, plumber and painter, Louisa, says: "My kidneys got in bad shape and I suffered much pain when passing the kidney secretions. There was sediment in the secretions. My back had a dull pain in it and it was about all I could do of a morning to dress myself. I was so lame across my back. I have done hard work in my time and followed the painting trade. I blame fumes of turpentine for the starting of my trouble. I read about Don't's Kidney Pills, so I went to the Louisa Drug Store Co. and got three boxes. I used them until my trouble left."

Is An Education Worth While?

This theme was written by a third year English student.

I think that about one-third of the people of today do not realize what this very important question means. The simple word of nine letters should mean everything to both children and grown-ups. Education does not only mean "to teach," but it also means to train and cultivate the mind to act quickly.

To ask some people for instance, the boy or girl who has never been taught what it is to have an education who only school at an early age, just because they thought they could earn money, they would not be able to answer the question, "Is an Education Worth While?"

He would not be able to answer the question, "Is an Education Worth While?"

He would not be able to answer the question, "Is an Education Worth While?"

When You Cook The Turkey.

Whether you roast, bake, or broil your turkey, cook it for three-quarters of the time on its breast. This method permits the bird to cook the heaviest part of the breast slowly as the heaviest part of the bird receives the intense heat.

Do not season the bird when you put it into the oven, but wait until the last quarter of the time allotted for cooking the bird, then season it to taste.

HOME CIRCLE COLUMN

A COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE AT EVENING TIDE.

Trail's End. I used to think old age a desert land.

Of vanished friendships and of lonely days.

The hunched gray ashes of life's early fires.

But now, so lightly down my foot-steps go.

Into that valley which they say is dream.

And the links are blue with children and all the bright-time birds are singing in it.

I need to think my heart would be so sad.

Twould spoil its bars to see another smile.

But I am still a child of Langston.

That is the friend who walks with me by night.

I learn that as ageless as the dawn.

That all love's messengers around me are.

So ready in a pleasant path, all in the gentle replies of spring.
